SOUTHERN NEW ENG

CONNECTICUT, MASSACHUSETTS, RHODE I

ot on Plymouth Rock, ied a key position in ought first erupted into independence. Along cond revolution—the course and character ism, taking root in the a recurrent theme in hy.

l part of the region, ds of the people and sh. Its traditions have

the most densely ur- d by time that to see reen would elicit no nufacturing cities as f the state and insur- ome of the grace and ely colonial homes of ldings of New Haven, ystic to the nuclear blends yesterday with

cticut's attractions re- stored to the appear- r ship era, features the 19th-century wooden essels, a museum and espeare Theatre fills earty flavor of the Elizabethan stage. Just as steeped in tradition but aiming surely at the future is Yale University. With its museums and libraries, it is one of New Haven's most popular attractions.

The indented shore of Long Island Sound and the wooded Canaan Mountains of the northwest are the major vacation areas within the state, attracting sportsmen, artists and sightseers. Opportunities for hunting, fishing, camping, water sports—and, especially in the north, winter sports—are legion.

MASSACHUSETTS. Every schoolchild knows the name; it means the Pilgrims, the Boston Tea Party, Paul Revere's ride, Lexington, Concord and Bunker Hill. But Massachusetts means more than history. The Berkshires, metropolitan Boston, Cape Cod and the rocky northern shore represent different facets of a very vigorous present. Federal parks embody history as well as concern for the future. Minuteman National Historical Park centers around Lexington and Concord, and Cape Cod National Seashore preserves 28,000 acres of the lovely cape coast.

Boston, Cambridge and their immediate environs are primary destinations in themselves. Both offer marked walking tours among their many points of historical significance. In addition, Boston has such places of interest as the Museum of Fine Arts and the Museum of Science. In Cambridge the museums of Harvard University and facilities of the Massachusetts Institute of Technology are favorite places to visit.

Although both are crowded summer vacation areas, the Berkshires and Cape Cod retain the kind of timelessness that pervades so much of New England. In summer the Berkshires echo the symphonic and chamber music the Berkshire Music Festival, one of the best known of kind. More out of the way are Nantucket and Martha Vineyard, islands which still cling closely to the mores seafaring days.

RHODE ISLAND, the only state to claim a bull-ridi clergyman as its first European settler, also boasts t least land, the longest name and the origin of a breed rufous chicken. For obvious reasons, the full name—t State of Rhode Island and Providence Plantations—s rarely used. This Lilliput, which launched the vast Ne England textile industry and was summer camp to son of the wealthiest families in the Nation, would fit 483 tim into the State of Alaska. It is a giant in Jack's clothing

Roger Williams, banished from Massachusetts for r ligious nonconformity, founded Providence in 1636, abo a year after William Blackstone and his bull entered t region. Now the second largest city in New Englan Providence is the industrial, commercial and educatio center and the capital of the state. It is also one of t leading textile and jewelry-making cities in the wor Newport is best known for the massive opulent "summ cottages" that were built by such affluents as the Asto Vanderbilts and Wideners. Belcourt Castle, The Breake Chateau-Sur-Mer, the Elms and Marble House are amo the estates open to visitors. The America's Cup yac race, which has been run since the 1850's, begins Newport.

Another popular resort is Block Island, about 20 mil off the coast. Its scenery often is compared to that Ireland and parts of Scotland.

CAPE COD is many things to many people. To architects, it's a style; to gourmets, a cusine; to artists, changing moods and patterns of light, color and space. Thousands of summer visitors see it as sunny beaches, quaint, festive towns with interesting shops and entertainment, yacht clubs and, often, a chance to rub elbows with vacationing celebrities. Perhaps more basic is the Cape Cod of the residents. Quiet, self-sufficient and individualistic, they view the cape as a haven where their pleasant, static way of life can proceed undisturbed, despite the annual influx of tourists.

Nature's Cape Cod—the same spectacular dunes, wild beaches, placid pools and open heath that greeted the Pilgrims—remains unscarred by industrial buildup in Cape Cod National Seashore. Weathered cottages, villages and lighthouses accent the isolation. Exhibits and programs are featured at the Salt Pond Visitor Center, off US 6 in Eastham, and the Province Lands Visitor Center, off Race Point Road near Provincetown. There are marked bicycle and nature trails, picnic areas and guarded beaches for swimming. The national seashore encompasses 28,000 acres.

Physically, Cape Cod curls into the Atlantic, forming the most prominent feature of Massachusetts' irregular coastline. South of it lie Nantucket Island, Martha's Vineyard and the Elizabeth Islands, which guard the entrance to Buzzards Bay. The Cape Cod Canal joins Buzzards and Cape Cod Bays and makes the cape an island.

Although the Mayflower's intended destination was the Hudson River area, she somehow ended up off Cape Cod in November 1620. While at anchor the Pilgrims drew up the Mayflower Compact to serve as a foundation for their government. Then they sailed across Cape Cod Bay and landed on Plymouth Rock.

The fishing villages that evolved on the cape became, by the early 1700's, centers of wealth and commerce. Prosperous sea captains and whalers built elaborate homes and furnished them with articles acquired on their world travels. Of the several such homes that are restored and open as museums, two of the oldest are the Hoxie House (1637) in Sandwich and the Col. John Thacher House (1680) in Yarmouth Port. Ancient cemeteries with poetic epitaphs dot the cape. Corn is still ground at 17th-century mills at Sandwich and Brewster. Durin[illegible] early 1800's [illegible]

for its beautifully colored glass. A museum houses a collection of this rare glass, for which the formula is now lost.

Although Provincetown is not the largest of the Cape Cod towns, it is probably the most widely known. Scene of the Pilgrims' first landing, the isolated community long depended on fishing and whaling for its livelihood. Today it is one of the best-known art colonies in the country. There is a full schedule of art exhibits, plays and concerts throughout the summer. Hyannis is another busy nucleus of vacation activities. Its harbor is deep enough for ocean-going yachts, and its beaches, especially Craigville Beach, are very popular. The Melody Tent presents musicals nightly in summer. Two candle companies offer opportunities to watch the manufacturing of a wide variety of candles. On Ocean Street a circular fieldstone wall bearing the Presidential seal is a memorial to John F. Kennedy.

From Woods Hole, the major port of Cape Cod, ferries operate to Martha's Vineyard and Nantucket. Vineyard Haven, Oak Bluffs and Edgartown, all on Martha's Vineyard, have long been favorite summer resorts. Many old homes still line the narrow streets of Edgartown, the island's oldest settlement. Vineyard Haven is the island's shopping center.

Much of Nantucket's charm lies in its picturesque houses, cobblestoned main street and other reminders of its prosperous whaling days. The Nantucket Whaling Museum houses ship models, logbooks, scrimshaw, prints and books from that era.
